

**PROPOSAL:** Establish a Mileage Reimbursement Standard

Currently we do not have a mileage reimbursement standard. As gas prices fluctuate, we want to propose a standard mileage reimbursement so all those who want to do service aren't unable to due to gas prices. Our mileage rate is currently 30 cents per mile and hasn't been raised since 2012.

We propose to pay 75% of the current IRS standard mileage rate per mile for that year.

- 2022 current standard mileage rate per IRS is 58.5 cents per mile driven.
- If proposal is passed this would make our mileage rate 44 cents per mile.
